Commissioner for Patents

The reply filed on October 14, 2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicants' amendment fails to comply with the provisions of 37 CFR 1.121. Firstly, claims 3 and 22, cancelled within the response of June 24, 2003, have been improperly reinstated. It is unclear how these claims are to be considered in view of their improper reinstatement and in view of the amendments made to the independent claims. Secondly, the claims contain amendments that have not been properly denoted in accordance with the aforementioned rule. For example, the A and B compounds of claim 23 have been improperly amended/changed; the language of claim 23 now corresponds to the language of claim 22; however, these changes have not been denoted. Applicants are required to check all claims for proper compliance with the rule. Lastly, it is noted that the subject matter of claims 35 and 36 reintroduces an issue previously resolved during examination. Specifically, applicants have failed to teach how to produce artificial kidneys, hearts, pancreas, and livers. See paragraph 5 within the Office action of April 3, 2001. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication should be directed to Rabon Sergeant at telephone number (571) 272-1079.
